Freeman Cheung is the Senior Vice President of AECOM responsible for environment business for Greater China. He has more than 25 years experience addressing environmental management issues from various industries and led a number of environmental impact assessments for large scale infrastructure projects in the region. Freeman is an Adjunct Associate Professor of the Hong Kong Polytechnic University and serves as part-time lecturer at a number of universities in Hong Kong. He also sits on the CIWEM Air Technical Panel and advisory committees for the Chinese University of Hong Kong and the Hong Kong Polytechnic University.
