FORUM ON

“PRACTICAL SOLUTIONS OF SOLAR ENERGY IN HONG KONG”

「太陽能在香港如何落地？」論壇

15th June 2019 (Saturday) / 09:00am ~ 12:30pm

Wing To Yick Tong Lecture Theatre (LT17), Yeung Kin Man Academic Building (AC1)

City University of Hong Kong, Tat Chee Avenue, Kowloon

Free of Charge 費用全免

(Language of the Forum will be primarily in Cantonese, supplemented by English terms)

Synopsis

As a continual effort of the Government of the HKSAR to promote the use of renewable energy and in line with the "**Hong Kong's Climate Change Action Plan 2030+**", the **Feed-In Tariff (FiT) Scheme** was officially launched in 2018, further encouraging grid connections of small-scale and residential solar renewable energy (RE) systems at very preferential "buy-back" rates.

A year has passed since then. HKGSA, in collaboration with CityU, is organizing this half-day forum to recap what had been achieved in the past year, to showcase successful RE projects, to share difficulties encountered in practical solar RE system planning / implementation processes, and to suggest ways forward to further enhance the FiT Scheme to better fulfill its original objectives.

Speakers include representatives from the government, professional association, utilities as well as contractor, including:

- ✧ **Mr. Alfred Sit**, JP, Director of **Electrical and Mechanical Services (EMSD)**
- ✧ **Prof. Yang Hong-xing**, Professor and Head of Renewable Energy Research Group (RERG) in the Department of Building Services Engineering, the **Hong Kong Polytechnic University**, and President of the **Solar Energy Society of Hong Kong**
- ✧ Speakers from **CLP**, **HK Electric** and **contractor**

A panel discussion will be conducted at the end of the Forum to give an opportunity for the audiences to have some interactive Q&A and discussions with the speakers.

The Forum is completely **Free of Charge**, but seats are very limited and will be reserved on **first-come-first-serve** basis. Please enroll through <https://forms.gle/xACGv2RxQ7N8casCA>. Successful applicant will be informed by email three (3) days before the event.

Forum on “Practical Solutions of Solar Energy in Hong Kong”

「太陽能在香港如何落地？」論壇

Saturday, 15th June 2019

Wing To Yick Tong Lecture Theatre (LT17), the City University of Hong Kong

PROGRAMME

08:45 - 09:00am	Registration
09:00 - 09:15am	Opening Remarks Ir Dr the Hon LO Wai-kwok, SBS, MH, JP Chairman of the Hong Kong Green Strategy Alliance (HKGSA) Legislative Councillor (Engineering Functional Constituency), HKSAR
09:15 - 09:30am	Keynote Speech "How HK Government Policy could Foster a Greener Hong Kong with Solar Energy" Ir Alfred SIT Wing-hang, JP Director of Electrical and Mechanical Services
09:30 - 10:00am	"A New RE Eco-System under the FiT and RE Certificate Scheme" Ir Kin WK LEUNG Head of Customer Business Development, The Hongkong Electric Company, Limited
10:00 - 10:30m	"Feed-in Tariff Scheme and Application Procedures" Ir CHENG Chi-yan Head of Business Development and Business Insights, CLP Power Hong Kong Limited
10:30 - 11:00am	Refreshment Break
11:00 - 11:30am	"Practical Utilization of Solar Energy in Hong Kong" Prof. YANG Hong-xing Head of Renewable Energy Research Group (RERG), Hong Kong Polytechnic University & President of the Solar Energy Society of Hong Kong
11:30 - 12:00nn	"How to run your Solar PV Plants for 15 years and Beyond" Mr. Steve H.W. CHEUNG CEO, Rhea Renewable Energy Company Limited
12:00 - 12:30pm	Panel Discussions Moderator: Ir Kenny WONG Honorary Secretary of the Hong Kong Green Strategy Alliance (HKGSA) Deputy General Manager, Environmental Management Division, HKPC
