

Green Council supports the Sustainable Development Goals

UN SDG Achievement Awards HK

Green Council is proud to present the **UN SDG Achievement Awards Hong Kong** (“Awards”), a sustainability initiative designed to accelerate and recognise efforts and achievements in contributing to the United Nations Sustainable Development Goals (SDGs), and to encourage Hong Kong entities and individuals to increasingly and collectively take similar actions to create a better future.

The SDGs, adopted by all United Nations Member States in September 2015, provide a framework and blueprint for the globe to take actions by 2030 on some of the most pressing issues confronting us in the pursuit of a more prosperous, inclusive and peaceful world for future generations. Organisations should foster the inclusion of the SDGs framework to support their sustainability efforts in this decade.

Organisations are encouraged to apply and nominate initiatives/programmes/projects (“projects”) to join the Awards. Entries will be evaluated by our panel of experts, including sustainability leaders from a variety of industries, to determine whether they have outstanding achievements in contributing to SDGs. Each initiative will then be scored for the degree to which it is considered to have **STAKEHOLDER ENGAGEMENT**, an innovative or transformative **APPROACH**, an outstanding **IMPACT**, and is **REPLICABLE/SCALABLE**.

Enrol now to showcase your successful efforts!

Benefits

The Awards send a powerful message to clients, customers, employees and suppliers – that your organisation is a strategic and operational leader in advancing sustainable development through your social responsibility efforts.

Connect

Every application will be featured on the Awards website. Share your sustainability and corporate responsibility success stories and engage with potential partners for your organisation.

Inspire

Through our network of media partners, your achievements will be highlighted in press releases, newspaper supplements and accompanying social media announcements, at speaking opportunities, and via digital features and article series.

Leverage

With a peer-reviewed judging methodology, recognition from our expert panel can help accelerate your growth. To increase the likelihood and potential to achieve SDGs by 2030, we should and can learn from some of the greatest innovators, mobilisers, and collaborators from different sectors and industries.

Winners will receive digital branding assets that include the year, category and level of achievement. These graphics may be used in online communications materials or embedded in future sustainability reports, annual reports or ESG reports. A custom trophy and certificate will be presented to each of the winners.

Key Dates

Below are some key dates this year.

Enrolment Open: April 2021

Submission Deadline: Late June 2021

Assessment Period: July and August 2021
