Hong Kong Green Strategy Alliance

Supports the Environmental Policies of 2021- 2022 Policy Address

The Hong Kong Green Strategy Alliance (HKGSA) strongly supports the new initiatives and solutions stipulated in the 2021-2022 Policy Address of the Chief Executive, which are appropriately covered in the environmental issues related to targets to achieve carbon neutrality by 2050, waste reduction and resources recovery, increasing renewable energy portion in the fuel mix, improvement of energy efficiency of buildings, promotion of the development of electric and other new energy public transport and commercial vehicles such as the trial use of hydrogen fuel cell buses, etc. We are pleased to note that many of our views and suggestions made to the Government have been well considered and incorporated in the Policy Address.

HKGSA is a non-profit making organization founded in 2012 by a group of professionals and stakeholders who are visionary and wish to undertake the responsibility on the issues of environmental protection and sustainable development. Through active participation, discussions and exchange of views in green issues, projects and technologies etc., HKGSA would offer our professional opinions and solutions to tackle green issues in Hong Kong and neighbouring region.

Should you need any further information, please feel free to contact the Alliance Chairman Dr WK Lo at 9032 3816 (drwklo@gmail.com) or our Honorary Secretary Ir Kenny Wong at 9482 3227 (irkennywong@gmail.com).
