The Hong Kong Institute of Qualified Environmental Professionals Limited
The Hong Kong Waste Management Association

Highlights

In collaboration with HKEnvIA, HKGSA is pleased to see its premier annual event, the **Annual Reception**, well attended and received by over 210 guests, catching up and mingling altogether face-to-face at the Conference Hall of HKPC.

Followed by short welcome speeches from the co-organizers, the Guest of Honor, **Mr. TSE Chin-wan**, BBS, JP, Secretary for Environment and Ecology of the HKSAR Government, for the evening started off by sharing his insights and latest government initiatives, emphasizing yet again the importance of joint effort and collaboration amongst all sectors in the community towards environmental sustainability and carbon neutrality.

Respective senior officials from various government departments then echoed on the key themes on sustainability and carbon neutrality, by sharing their unique efforts and initiatives within their respective departments towards jointly achieving these goals. All speeches were short but precise, with some niche areas of development not easily made known to the public merely by common sense.

The formality of the Annual Reception concluded with a series of group photos, after which more individual causal exchanges followed. Selected photos attached recorded the success of the Annual Reception this year.

We sincerely look forward to seeing you in our next premier activity!
