

Hong Kong Green Strategy Alliance 香港綠色策略聯盟

“綠色策略，共創未來”

Executive Committee Member

Ir Louis CHAN

*BSc(MCL), MSc(BSE), MSc(ENV), FHKIE, RPE (ENV MCL), MHKIEIA, MHKIQEP
CEMAHK, MHKIOA, C.Eng, MCIWEM, C.WEM, MIMechE, MIGEM, MHKICAdj
Accredited Adjudicator*

Senior Environmental Business Manager, China Harbour Engineering Company Ltd.
Past Chairman, Hong Kong Waste Management Association (HKWMA)
Member, Member of the Environmental Discipline Advisory Panel (DAP),
The Hong Kong Institution of Engineers (HKIE)

Ir Chan is extensively focused on unique environmental assignments related to landfill gas energy recovery, contaminated land remediation and sediment bioremediation projects for environmental improvement and green / renewable energy. He has been involved with the first landfill gas export project in Hong Kong since late 90's, and continued his involvement at the NENT Landfill in 2005 and the SENT Landfill in 2014. Other high-profile projects included the Soil Vapor Extraction / Air Sparging system and Biopiles for remediation of petroleum-contaminated soils at the former Kai Tak Runway, as well as several *in-situ* bioremediation projects to treat malodorous sediments in Shing Mun River, Lei Yue Mun Typhoon Shelter, the Kai Tak Approach Channel and Shenzhen River. Ir Chan possess hands-on experiences ranging from design, implementation and monitoring, and is well versed in various aspects of engineering and management.

Ir Chan was the Vice Chairman of the Hong Kong Waste Management Association between 2007 – 2009, then served as Chairman between 2009 – 2012. He has served HKGSA since its inauguration in 2012.
